TECHNICAL SKILLS

Frontend: React.js, HTML, CSS, Bootstrap, Tailwind, JavaScript

Backend: PHP, Node.js

Database: MySQL

Tools: Git, GitHub, XAMPP, VS Code

Other: REST API Integration, Responsive Design

CERTIFICATIONS

- Web Development – SoloLearn
- Employability Skills (JobReady) – Wadhvani Skilling (2024)
- CITE Success Ladder Level 1 & 3

PROFILE

Full Stack Developer specializing in modern web applications using React.js and backend technologies. Experienced in building responsive, scalable systems through academic and real-world projects, including e-commerce and job platforms. Strong foundation in both frontend and backend development, with a focus on clean code, performance, and user experience.

PROJECTS

Essential HUB (E-commerce Web App) 2025

Full Stack Developer

- Developed a full-stack e-commerce platform using React.js for the frontend and Node.js/Express for the API logic.
- Implemented a secure MySQL database schema to manage product inventory, user accounts, and order history.
- Optimized UI components for Responsive Design, ensuring a seamless shopping experience across mobile, tablet, and desktop devices.

WBEBB-CHG (Employment Bulletin Board) 2024

Full Stack Developer

- Built a job posting platform connecting job seekers, companies, and LGUs
- Developed backend logic and database using PHP and MySQL
- Designed user-friendly interface for job applications and listings

Amore: Love Finder Dating App 2023

Developer

- Developed a simple dating application exclusive for UPang students
- Built using Java and Android Studio
- Implemented basic features such as user profiles and matching
- Integrated MySQL for user data storage and management

Courage (Mental Health Support App) 2022

Developer

- Engineered a mobile application using Java and Android Studio to deliver motivational content and resources.
- Designed a lightweight, accessible user interface focused on delivering a positive and clutter-free user experience.
- Managed application state and local data storage to ensure fast, offline access to motivational quotes

WORK EXPERIENCE

Essential Company

2025

Intern / OJT - Full Stack Developer

- Collaborated on the end-to-end development of the "Essential" e-commerce web application.
- Translated UI/UX wireframes into functional, high-performance code using React.js.
- Assisted in debugging and performance tuning, identifying and resolving critical frontend bottlenecks.
- Participated in the full Software Development Life Cycle (SDLC), from database design to system integration.
