PROFESSIONAL SUMMARY

Detail-oriented Full Stack Developer and IT student specializing in building responsive, scalable web applications with React.js and modern backend technologies. I have a proven track record of developing complex systems, such as e-commerce and job platforms, with a primary focus on clean code, performance, and user experience. Known for technical adaptability and leadership in collaborative environments, I excel at bridging sophisticated minimalist design with robust, high-quality functionality.

TECHNICAL SKILLS

Technologies: HTML, CSS, JavaScript, PHP, React, Tailwind, Bootstrap, MySQL, PostgreSQL, Node.js, Git, XAMPP, REST API Integration

Expertise: Full-Stack Development, Frontend, Backend, UI/UX Design

Professional: Collaborative Leadership, Quick Learner, Analytical Problem Solving, Flexible and Adaptable, Critical Thinking

WORK EXPERIENCE

Full-Stack Developer Intern

May – Sept 2025

Essential Hub Company INC.

- Stepped into a Team Lead role, guiding the team through technical hurdles and the architecture of an e-commerce project.
- Collaborated on the end-to-end development of the "Essential" e-commerce web application.
- Translated UI/UX wireframes into functional, high-performance code using React.js.
- Assisted in debugging and performance tuning, identifying and resolving critical frontend bottlenecks.

KEY PROJECTS

Essential HUB (E-commerce Web App)

Developed a responsive React.js e-commerce platform featuring seamless integration with a Node.js API and MySQL database to facilitate secure, real-time management of product inventory and user transactions across all device types.

WBEBB-CHG (Employment Bulletin Board)

Comprehensive job posting platform using PHP and MySQL to streamline connections between job seekers and local government units through an intuitive interface for managing applications.

Dentura & Management System

Professional dental clinic website template and inventory/sales tracking system focused on minimalist design and business efficiency.

EDUCATION

PHINMA University of Pangasinan

Expected June 2026
